A grand, ornate chandelier hangs from a highly decorated ceiling in a luxurious hallway. The ceiling features intricate gold-colored moldings and recessed panels. The walls are adorned with framed paintings and classical architectural elements like columns. In the background, a large stained-glass window depicts a maritime scene with ships. The overall atmosphere is one of classic elegance and high-end interior design.

Joint project approach with buyers

1 

Initial discovery phase

The first step is to discover Portugal from your home. Through a number of exchanges, we will help you understand the country, the market as well as all the required administrative steps. We will provide you with our Ebook.

3 

Select the best area

With our in-depth knowledge of Portugal, we will help you find the most appropriate locations for your project.

5 

Negotiation phase

Having found your ideal property, we will support you throughout the negotiation process to reach the best possible deal.

7 

Post purchase support

After the sale, we can help you settle in, deal with the utility companies or any with other questions you may have.

2

Undersand your objectives

With a series of question-and-answer sessions, we will define your project, your motivations, your tastes, your lifestyle requirements and your desired timeframe.

4

Property search

We will define with you the most important criteria when selecting a property. We will then research the market for the right properties and organize visits.

6

Closing support

We will help you reach an agreement, with the help of a lawyer, and assist you until the deed contract is signed.

Reviews

Isabelle (French) :

We bought an apartment through De Brito Properties a few months ago, and they are still helping us with the works, contracts and formalities (all done in a quick and reliable way). They help us out on all issues we might have and for that they have become our real estate reference in Portugal. We are thankful and happy for having discovered them for our purchase in Lisbon.

Christina (American) :

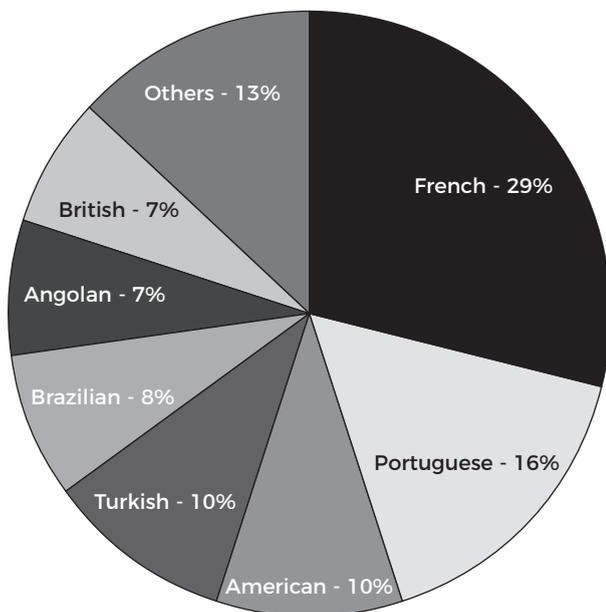

My husband and I had wonderful help purchasing a home in Azeitão. Titti Curtaz was attentive, professional, kind and truly listened to what our needs and concerns were as we tried to find the right home for us. Our Portuguese is very basic, and she graciously helped translate information between the seller and us. I highly recommend her and De Brito Properties.

Veronica (French) :

Very good experience. Very professional and trustworthy agency that goes beyond their means to help us during our difficulties. A big plus, especially if you don't speak the language. Thank you to the whole team for their availability and kindness.

in 2021, 84% of our sales were made with international buyers.

Eran (Israelite) :

As we were looking for a Portuguese real-estate investment, we viewed many (MANY) agents.

While browsing (by chance) we came across De Brito Properties.

At first, they seemed like a boutique real estate company, but after a short (virtual) meeting with César (the beginning of COVID19...) he left an impact which no one else did.

Obviously, we did our due diligence (Since we're not Portuguese and didn't know who to trust), and they came out with flying colors.

Later on, we met Fernanda and understood that she was a perfect match for us.
